## MEDI-CAL PROGRAM

1994

This report presents statistical data on Medi-Cal program services, expenditures, and eligibles for Calendar Year 1994.

It should be noted that expenditures in this report are based on paid claims computer tapes prepared by various entities that process Medi-Cal claims and do not represent official budget figures or accounting records. Audit recovery monies, Medicare premiums, refunds, and administrative expenses are not included in this report except when specifically noted.

This report does not account for drug rebates from contracts with manufacturers nor Disproportionate Share Hospital Payments.

## NOTE ON DATA PRESENTATION

Data on Prepaid Health Plans are excluded from a number of tables in this report. Prepaid Health Plans receive a monthly capitation payment to provide services to enrollees, so cost figures for specific services are not available.

Redwood Health Foundation, Santa Barbara Health Initiative, Health Plan of San Mateo, and Delta Dental Service are reimbursed by Medi-Cal on a capitated at-risk basis. Those fiscal intermediaries, however, provide per-service payment data to the State and the data are included in this report.

The fee-for-service data for Primary Care Case Management Plans are included in this report, where applicable.

## **MEDI-CAL PROGRAM STATISTICAL SUMMARY**

### **CALENDAR YEAR 1994**

In 1994, a total of 5.39 million persons per month were eligible for Medi-Cal. This represents an increase of 3.6 percent from 1993.

The 507,957 persons enrolled in Prepaid Health Plans ( PHPs) each month reflected a 34.9 percent increase from 1993. PHP capitation payments totaled \$599.8 million which was an increase of \$155.8 million from 1993.

A total of \$218.1 million in prepaid capitations were received by county organized health systems to provide non-dental medical services for an average of 131,583 eligibles per month during 1994.

There were 2.33 million persons who used Medi-Cal benefits each month in 1994. This includes regular Fee-For-Service, Santa Barbara Health Initiative, Health Plan of San Mateo, and Delta Dental Service benefits. Provider payments for those users totaled \$10.23 billion which was 4.3 percent or \$96.7 million more than in 1993.

Compared to 1993, Medi-Cal users, excluding PHP enrollees, increased 4.3 percent and the respective eligible population (4.88 million persons per month) reflected a 1.1 percent increase.

There were 3.0 percent more users per 1,000 eligibles in 1994. The utilization rate was 47.6 percent compared to 46.2 percent in 1993.

The average cost per user was \$366.45 per month (down 1.3 percent from 1993) and the average cost per eligible was \$174.52 per month (up 1.9 percent from 1993).

Public Assistance eligibles, excluding PHP enrollees, averaged 3.57 million persons per month in 1994, an increase of 1.1 percent from 1993. This aid group accounted for 73 percent of the non-PHP eligible population, 73 percent of the users, and 56 percent of total provider payments (\$5.73 billion).

Medically Needy eligibles averaged 576,531 persons per month in 1994, an increase of 2.8 percent from 1993. Medically Needy accounted for 12 percent of non-PHP eligibles, 14 percent of users, and 31 percent of total provider payments (3.14 billion).

Medically Indigent eligibles averaged 253,875 persons per month in 1994, a 7.2 percent increase from 1993. Medically Indigent accounted for 5 percent of non-PHP eligibles, 5 percent of users, and 4 percent of total provider payments (\$364.5 million).

County and community hospital services accounted for 36.0 percent of 1994 provider payments. County hospitals received \$985.1 million, down 9.9 from 1993. Community hospitals received \$2.66 billion, down 4.2 percent from 1993.

Medi-Cal purchased Medicare Part A and Part B Supplemental Medical Insurance for an average of 705,871 Aged and Disabled eligibles each month in 1994. Monthly premiums averaged \$30.6 million.

## SECTION 1

### HIGHLIGHTS OF 1994 PROGRAM CHANGES

The following discusses the major changes of the Medi-Cal program during Calendar Year 1994.

#### Pediatric Subacute Services - New Medi-Cal Benefit, April 1, 1994

The Department of Health Services is mandated by AB 36, Chapter 1030, Statutes of 1993, to provide reimbursement for services to technology dependent children. These services are referred to as Pediatric Subacute Care. Statute requirements contained an April 1, 1994 implementation date.

Effective April 1, 1994, children will be placed in a subacute care bed who were previously confined to a hospital inpatient bed or residing in a developmental center.

#### Geographic Managed Care: Sacramento County, April 1, 1994

Geographic Managed Care (GMC) as authorized by AB 336 (Chapter 95, Statutes of 1991 ), was implemented in Sacramento County on April 1, 1994. Medi-Cal recipients in Sacramento County who receive assistance through Aid to Families with Dependent Children (AFDC) and Medically Indigent Children are required to enroll in a managed care plan. Aged, blind and disabled recipients who are eligible for Medi-Cal under the Supplemental Security Income (SSI) program may voluntarily enroll in one of the managed care plans or continue receiving health care through the Medi-Cal fee-for-service program.

As of December 1, 1994, mandatory enrollment in Geographic Managed Care reached 135,000 members.

A second Geographic Managed Care program will be implemented in San Diego with an expected start date of January 1, 1997.

#### Dental - Geographic Managed Care, April 1, 1994

The Geographic Managed Care (GMC) plan in Sacramento County covers dental services for all AFDC eligibles. Effective April 1, 1994, services are being delivered through four contractors. Savings in dental expenditures are estimated since dental GMC rates are less than the estimated rate paid to Delta Dental.

On December 14, 1994, the U.S. District Court ordered that beneficiaries could choose to continue under fee for service rather than be under GMC. As a result of a recent decision in the Clark vs. Belshé lawsuit, however, the Department can now require mandatory enrollment in GMC for dental benefits for Sacramento County Medi-Cal beneficiaries in designated aid codes.

### Managed Care Expansion - Two Plan Model

Twelve Counties (Alameda, Contra Costa, Fresno, Kern, Los Angeles, Riverside, San Bernardino, San Francisco, San Joaquin, Santa Clara, Stanislaus, and Tulare, are scheduled to convert to the two plan model. The two plan model consists of a local initiative (LI) and a mainstream plan. Approximately 2.5 million Medi-Cal beneficiaries are expected to be enrolled in the twelve counties in 1996-97.

The Department of Health Services has been working with the county organizations to bring up (LI) contracts in each of the designated counties. Since each LI must receive Knox-Keene licensure and demonstrate compliance with a comprehensive Detailed Design Application (DDA), the first counties are only now ready to begin operations during the early months of 1996.

In October 1995, the Department of Health Services announced its intent to award mainstream contracts in the twelve counties. Three contractors were selected: California Care (Blue Cross) in Alameda, Kern, San Francisco, San Joaquin, Santa Clara, and Stanislaus; Foundation Health in Contra Costa, Los Angeles, and Tulare; Molina Medical Centers, Inc. in Riverside and San Bernardino. Two plans, California Care and Foundation Health, were chosen in Fresno because of difficulties in forming a Local Initiative. Although protests were filed in seven counties, work continues to implement the mainstream contracts in the other five counties.

### Early Periodic Screening, Diagnosis and Treatment Supplemental Services, April 4, 1994

Early Periodic Screening, Diagnosis and Treatment Supplemental Services (EPSDT) -- Effective April 4, 1994, the Medi-Cal program implemented federal statute requiring program coverage of all services states may cover under Medicaid law to persons under 21 which are medically necessary to correct or ameliorate a physical or mental defect or condition. Examples of such services not available to persons over 21 are services provided by Licensed Clinical Social Workers or Licensed Marriage, Family and Child Counselors, speech therapy, chiropractic or psychology services in excess of two per month, environmental lead inspections, and home nursing services (which for those over 21 can only be obtained through the Home and Community Based Waivers). Effective April 27, 1995, case management services were added as a fee for service EPSDT supplemental service.

### New County Health Initiative: Solano Partnership HealthPlan (SPH), May 1, 1994

A new County Health Initiative was implemented for Solano County Medi-Cal recipients. The Solano Partnership HealthPlan (SPH) is a Medi-Cal county-wide health system administered by the Solano County Commission on Medical Care.

This program began on May 1, 1994. The Solano Partnership HealthPlan serves all Medi-Cal-eligible and Medicare/Medi-Cal crossover-eligible recipients with an ID number beginning with County Code 48 (Solano County). Note: Recipients with County Code 48 and one of the following aid codes are not eligible for SPH: 06, 07, 7A, 7C, 44, 46, 47, 48, 49, 50, 69, 70, 72, 73, 74, 75, and 79.

#### Senate Bill 485, Inpatient Crossover Claims No Longer Payable By Medi-Cal, May 1, 1994

Effective with hospital admission dates of May 1, 1994 or later, Medi-Cal will no longer pay the Medicare deductibles and/or coinsurance on Inpatient Crossover Claims.

This change is the result of Chapter 7, Section 14109.5, of the Welfare and Institutions Code which states that Medi-Cal reimbursement rates for hospital inpatient services rendered to beneficiaries eligible for both Medicare and Medi-Cal (crossover claims) shall be no greater than the amounts paid by the Medicare program for similar services. Since Section 14109.5 establishes Medi-Cal's maximum reimbursement rates for crossover inpatient services at Medicare's reimbursement levels, the difference between Medi-Cal's rate and Medicare's rate will be zero.

#### Implementation of Aid Codes 3A and 3C - California Alternative Assistance Program (CAAP), May 1, 1994

As required by Senate Bill 35 (Chapter 69, Statutes of 1993), the Department of Social Services has established the California Alternative Assistance Program (CAAP), effective May 1, 1994. The Department of Health Services implemented two new Aid Codes 3A CAAP-AFDC (Aid to Families with Dependent Children) (FG) Family Group and 3C CAAP-AFDC (U) Unemployed Parent Group. These Aid Codes are for individuals who have declined an Aid to Families with Dependent Children (AFDC) cash grant and instead will receive child care assistance and Medi-Cal. This program is federally funded. CAAP provides zero-share-of-cost full scope Medi-Cal.

#### Implementation of Aid Codes 4K and 5K - Emergency Assistance for Probation and Child Welfare Services, May 1994

Two aid codes have been implemented for the foster care portion of the Emergency Assistance (EA) program, effective May 1994. Aid Code 4K identifies only probation cases resulting in EA foster care placements. Aid Code 5K identifies only child welfare services cases resulting in EA foster care placements. These codes cover full-scope Medi-Cal services. Aid Codes 4K and 5K apply only to a portion of the total EA population and are not used for children placed outside of EA foster care.

#### Waivers of Medi-Cal Probate Claims, May 1994

Effective in May 1994, the Medi-Cal program implemented new criteria and procedures to grant hardship waivers of probate claims and real property liens. These changes were mandated by Welfare and Institutions Code 14009.5 as amended by Senate Bill 177 (Chapter 1201, Statutes of 1989). These regulations were repealed by the Office of Administrative Law in September 1994, but new emergency regulations are expected to become effective in February 1995.

#### Drug Prescription Limit, July 1994

Senate Bill 485 (Chapter 722, Statutes of 1992) limits prescription drugs covered by Medi-Cal to 10 per month unless prior authorization is obtained. The limit does not apply to beneficiaries in long-term care or to family planning drugs. The change was implemented July 1, 1994.

Assembly Bill 2377 mandated further limitations on monthly prescriptions by changing the 10 prescription limit to a 6 prescription limit. The 6 prescription limit was implemented November 1, 1994.

#### Ten Percent (10%) Supplemental Drug Rebate, July 1, 1994

Assembly Bill 2377 requires that for the period July 1, 1994 through June 30, 1996, all pharmaceutical manufacturers must provide a supplemental ten percent (10%) rebate for each prescription drug reimbursed by the Medi-Cal program, less any state supplemental rebate provided under separate state agreements. Drugs for the treatment of AIDS and/or cancer patients are excluded from this requirement.

#### Asset Waiver - Pregnant Women and Infants, September 1994

Effective September 1994, the Medi-Cal program implemented Title XIX of the Social Security Act, Section 1902 (1)(3)(a), which allows states to waive assets in determining eligibility for pregnant women and infants with income at or below 185% of poverty.

#### New Aid Code 5F: OBRA Pregnant Recipients, October 1, 1994

Aid Code 5F has been developed to identify OBRA alien pregnant women who were formerly identified by Aid Code 58. This Aid Code became effective October 1, 1994. As with Aid Code 58, recipients with Aid Code 5F (undocumented aliens and certain temporary visitor aliens) are eligible for emergency and pregnancy-related services only. They may or may not have a Share of Cost (SOC).

#### Aid Code 7H - Medi-Cal Tuberculosis Program, October 1, 1994

The Department of Health Services (DHS) implemented the Medi-Cal Tuberculosis (TB) Program on October 1, 1994, retroactive to July 1, 1994. The Federal Omnibus Budget Reconciliation Act (OBRA) of 1993 allows state the option to pay for TB related services for persons infected with TB. Section 1902(a)(10)(A)(ii)(XII) of the Federal Social Security Act (42 U.S.C. Section 1396a(a)(10)(A)(ii)(XII)) establishes the TB Program and specifies that the income and resources of these eligible persons may not exceed the maximum amount allowed under the Supplemental Security Income (SSI) Program for a disabled person. State Assembly Bill 2377 (Chapter 147, Statutes of 1994) specifies that this Program be adopted.

#### Aid Code 7H - Medi-Cal Tuberculosis Program, October 1, 1994 (Continued)

Special Program Aid Code 7H will cover eligible persons who are TB infected and will cover only TB related outpatient services. Recipients in Aid Code 7H will receive TB related services at a zero share of cost. Up to three months retroactive eligibility may be available under this program if the verification shows that the otherwise eligible person was infected at that time. Eligibility under 7H will continue until the counties make a change or terminate the recipient from the Medi-Cal Eligibility Data System (MEDS).

#### Targeted Early Fraud, October 1994

In Fiscal Year 1994/95, the Investigations Branch received 32 additional investigative positions to expand the Early Fraud Detection Program (EFDP). The EFDP emphasizes the detection and prevention of Medi-Cal fraud at the time of beneficiary application.

#### Plastic Benefits Identification Card

In 1994, most California County Medi-Cal beneficiaries began using plastic Benefits ID Cards (BICs), which replaced the monthly paper Benefits ID Cards. As of November 1995, only one county remains on a paper Benefits ID Card.

#### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

#### NOTE

This report is for informational purposes only and does not purport to be, or attempt to give, a legal interpretation of rules, regulations, and laws pertaining to the Medi-Cal Program. Questions and comments may be directed to Phyllis Barnhouse, Medical Care Statistics Section, (916) 657-2964.

## **SECTION 2**

### **MEDI-CAL ELIGIBLES AND USERS**

## **MEDI-CAL ELIGIBLES, ALL PROGRAMS - TABLE 1**

Total Medi-Cal eligibles averaged 5.39 million persons per month during 1994, an increase of 3.6 percent from 1993.

Public Assistance (PA) eligibles averaging 4.08 million persons per month in 1994, increased 4.3 percent from 1993.

Total Medically Needy (MN) eligibles averaged 576,531 persons monthly, a 2.8 percent increase from 1993.

Total Medically Indigent (MI) eligibles averaged 253,875 persons monthly and increased 7.2 percent from 1993.

The Immigration Reform and Control Act (IRCA) Aliens averaged 13,459 persons monthly and decreased 67.1 percent from 1993.

The Omnibus Budget Reconciliation Act (OBRA) Aliens averaged 300,469 persons monthly and decreased 2.8 percent from 1993.

The Refugee/Entrant programs averaged 7,311 persons monthly and decreased 14.1 percent from 1993.

The 100 Percent Poverty program averaged 9,085 persons per month in 1994.

The 133 Percent Poverty program averaged 64,137 eligibles per month in 1994.

The 185 Percent Poverty program averaged 74,054 persons monthly and increased 5.6 percent from 1993.

The 200 Percent Poverty program averaged 1,997 persons monthly and decreased 42.0 percent from 1993.

The 60-Day Postpartum program averaged 1,790 persons monthly and decreased 12.1 percent from 1993.

The Dialysis program is small, with an average of 29 persons monthly in 1994.

The Total Parenteral Nutrition program averaged only nine persons per month during the year.

The Qualified Medicare Beneficiary program averaged 1,587 persons per month in 1994.

The Presumptive Eligibility for Pregnant Women program averaged 6,842 persons per month in 1994.

The Medi-Cal Tuberculosis program averaged five persons per month in 1994.

Enrollment of Medi-Cal eligibles in capitated health systems increased 36.9 percent in 1994, to a monthly average of 626,035 persons. For additional information, See Section 5, Medi-Cal Capitated Health Systems, page 49.

## **ELIGIBLE COUNTY POPULATION - TABLE 2**

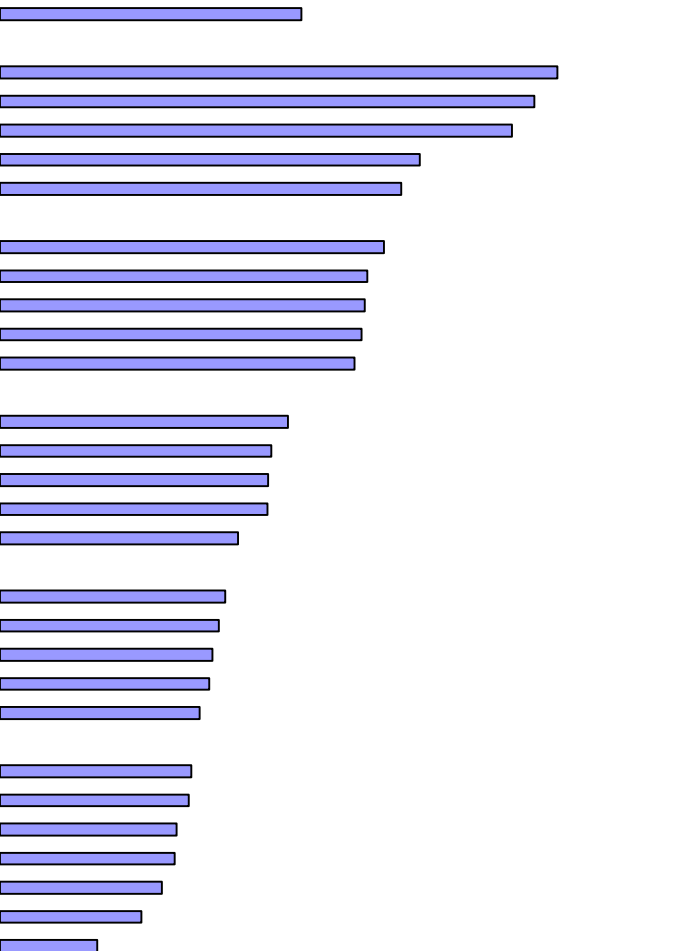

Twenty-seven California counties had a total population of 200,000 or more in 1994. These counties are ranked in Table 2 according to the percentage of the population that was eligible for Medi-Cal.

The percentage of the total California population that was eligible for Medi-Cal was 16.8 percent for 1994. This was a 0.4 percentage point higher than the 16.4 percent eligible in 1993.

Merced County had a larger percentage of its population eligible for Medi-Cal than the other counties during 1994. In 1994, 31.0 percent of Merced County's population were eligible for Medi-Cal.

Marin County was at the low end of the distribution with only 5.4 percent of its population eligible for Medi-Cal in 1994. This was a 0.1 percentage point higher than the 5.3 percent eligible in 1993.

### MONTHLY MEDI-CAL ELIGIBLES - TABLE 3

During 1994, a monthly average of 4,882,760 persons were eligible for benefits (excludes PHP enrollees). Average monthly eligibles in the first half of the year ran about 35,635 or 0.7 percent higher than in the last half.

The Public Assistance (PA) program accounted for 73 percent of the total annual average eligibles. The PA eligibles averaged 26,266 more persons in the first half of the year than in the last half. These figures do not include PHP enrollees.

The Medically Needy (MN) program accounted for 12 percent of the total annual average eligibles. The average MN eligibles ran 18,551 persons higher in the first half of the year than in the last half.

The Medically Indigent (MI) program accounted for 5 percent of the total annual average eligibles. Eligible counts in the MI program peaked in October. The average MI eligible count was higher in the last half of the year than in the first half.

The Aliens and Refugee/Entrant programs combined accounted for 7 percent of the eligible population.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and 200 Percent Poverty programs combined accounted for 3.1 percent of the eligible population.

The 60-Day Postpartum program accounted for less than 0.1 percent of the eligible population.

The Qualified Medicare Beneficiary program accounted for less than 0.1 percent of the eligible population.

The Presumptive Eligibility for Pregnant Women program accounted for 0.1 percent of the eligible population.

The Medi-Cal Tuberculosis program accounted for just a fraction of the eligible population (0.0001 percent). The Dialysis and Total Parenteral Nutrition programs combined accounted for just a fraction of the eligible population (0.001 percent).

## **MONTHLY MEDI-CAL USERS - TABLE 4**

An average of 2,325,421 persons received Medi-Cal services each month in 1994. Monthly users averaged 145,435 more persons in the first half of the year than in the last half.

The Public Assistance (PA) program accounted for 73 percent of the total annual average Medi-Cal users during 1994. There was an average of 114,721 more PA users in the first half of the year.

The Medically Needy (MN) program accounted for 14 percent of the total annual average users. There were 6.9 percent more MN users in the first half of the year.

The Medically Indigent (MI) program accounted for 5 percent of the total annual average users. These users averaged 6 percent more MI users in the first half of the year.

The Aliens and Refugee/Entrant programs accounted for 4 percent of the total annual users. These users averaged 4.5 percent higher in the first half of the year.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and the 200 Percent Poverty programs combined accounted for 3 percent of the total annual users.

## MEDI-CAL UTILIZATION - TABLE 5

Comparing persons eligible during a period with claims paid (rather than services provided) in that period gives rather crude comparisons, but the more correct comparison would not generally result in significantly different utilization rates.

An average of 2.33 million persons per month used Medi-Cal benefits in 1994.

The total number of users per 1,000 eligibles increased 3.0 percent, from 462 in 1993 to 476 in 1994.

During 1994, the Public Assistance Families, Medically Needy Families, and Medically Indigent Children categories all have relatively low utilization rates (397, 477, and 421 users per 1,000 eligibles respectively). These are groups with utilization rates below 50 percent.

In 1994, Aged, Blind, and Disabled eligibles have the higher utilization rates in the Public Assistance and Medically Needy Programs.

The highest utilization rate was in the Refugee/Entrant category.

These data do not include users of health care services provided by Prepaid Health Plans (PHPs).

**Blank Page**

**SECTION 3**

**MEDI-CAL EXPENDITURES**

**TOTAL PROVIDER PAYMENTS**  
**BY PROGRAM AND AID CATEGORY - TABLE 6**

Providers received \$10.23 billion in 1994, an increase of \$301.0 million or 3.0 percent from 1993.

Public Assistance, the largest group in terms of total expenditures, received \$5.73 billion in services in 1994, a 4.1 percent increase from 1993.

The Medically Needy group received \$3.14 billion in services in 1994, a 5.1 percent increase from 1993.

Medically Indigents received services totaling \$364.5 million, a 10.3 percent increase from 1993.

The IRCA Aliens, OBRA Aliens, and Refugee/Entrant programs accounted for \$30.1 million, \$647.5 million, and \$24.7 million, respectively, in 1994. These programs accounted for 6.9 percent of the total expenditures.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and the 200 Percent Poverty programs accounted for \$3.4 million, \$33.2 million, \$208.7 million, and \$6.3 million, respectively, in 1994. These programs accounted for 2.5 percent of the total expenditures.

The 60-Day Postpartum program accounted for \$1.7 million in 1994, a decrease of 18.6 percent from 1993.

The Dialysis, Total Parenteral Nutrition, Qualified Medicare Beneficiary, Presumptive Eligibility for Pregnant Women and the Medi-Cal Tuberculosis programs accounted for \$364 thousand, \$181 thousand, 1.4 million, \$11.0 million, and \$16, respectively, in 1994. These programs accounted for less than 1 percent of the total expenditures.

## PROVIDER PAYMENTS AND ELIGIBLES - FIGURE 1

Aged persons have concurrent Medicare coverage that holds down their Medi-Cal costs in the Public Assistance (PA) program despite high utilization rates. (Table 5 shows the utilization rate for 1994 was 65 percent).

Many Aged persons in the Medically Needy (MN) group are in long-term care facilities, which results in high Medi-Cal costs for this group. The MN Aged constitute 46.6 percent of the MN expenditures, but represent only 18.7 percent of the MN population. This group had a utilization rate of 83.7 percent, which was one of the highest during 1994.

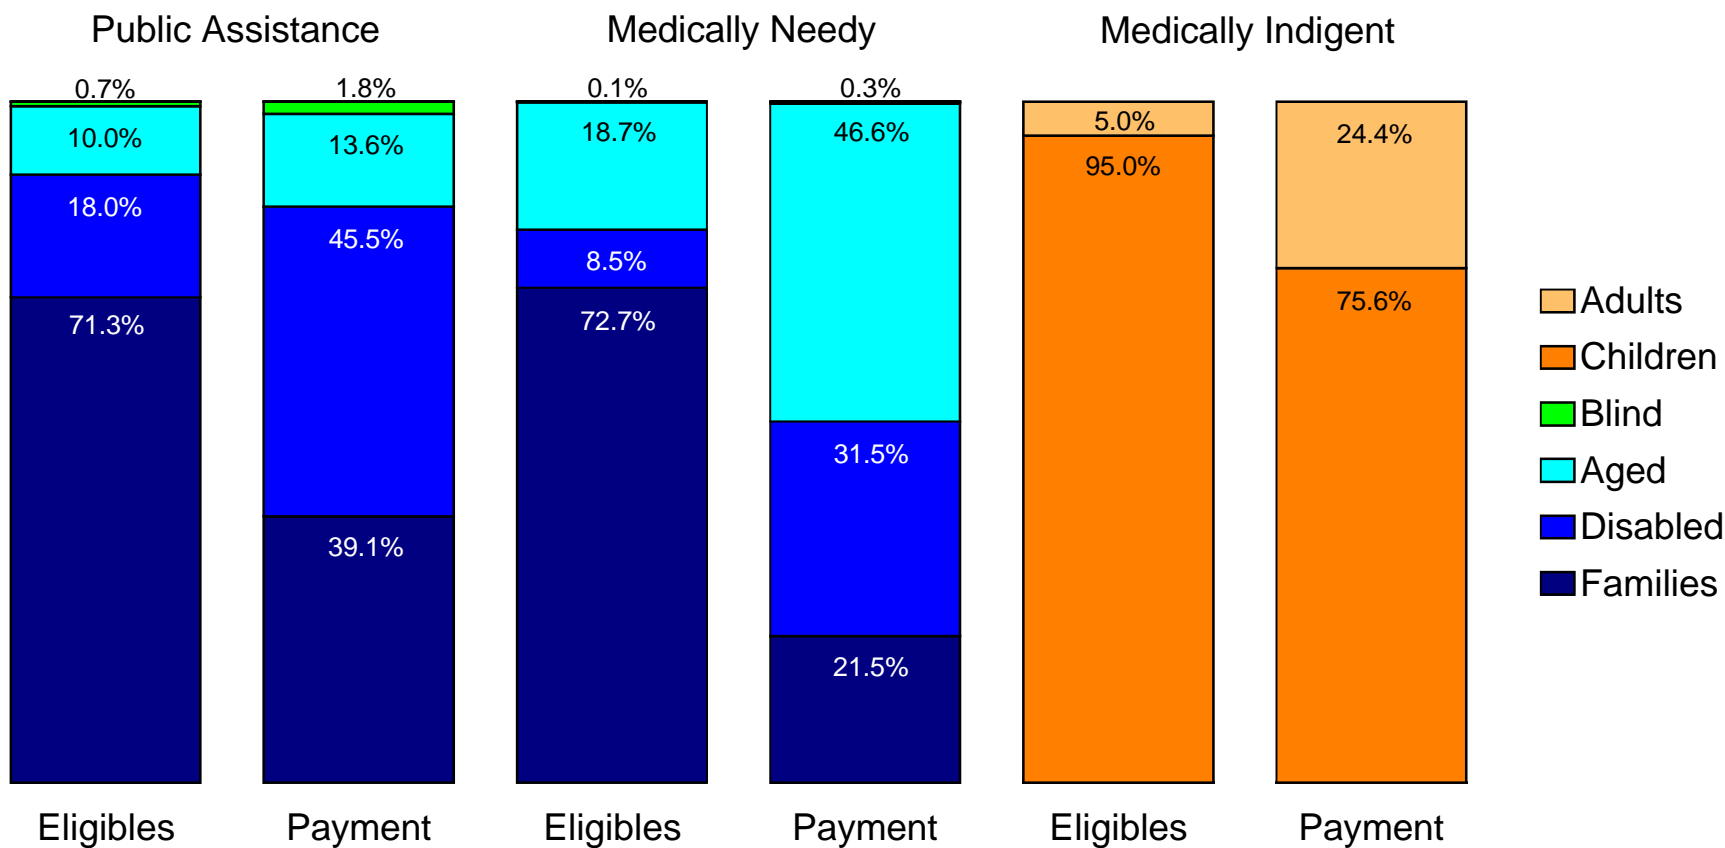

The Disabled also had high utilization rates (68.2 percent for PAs and 88.0 percent for MNs). Expenditures for the Disabled ran twice their representation in the PA program and three times their representation in the MN program. High utilization rates combined with the use of the more costly services, such as State Hospital, Hospital Inpatient, and Long-Term Care services results in high Medi-Cal costs for the Disabled.

PA and MN Families and Medically Indigent (MI) children have comparatively low utilization rates (39.7 percent, 47.7 percent, and 42.1 percent, respectively). These groups reflected much larger proportions of their respective eligibility groups compared to proportions of expenditures.

MI Adult eligibles during 1994 comprised only 5.0 percent of the MI population and used 24.4 percent of total MI expenditures. The large difference in these percentages is MI Adults are either in Nursing Facilities or are pregnant, hence more costly than the MI Children on the average.

**PAYMENT PER ELIGIBLE**  
**BY PROGRAM AND AID CATEGORY - TABLE 7**

The average monthly payment per eligible was \$174.52 in 1994. This represents an increase of \$3.21 per eligible or 1.9 percent over the prior year.

Relative cost increases exceeding the overall 1.9 percent were experienced by the Public Assistance Aged (up 2.2 percent), Blind (up 2.3 percent), and Families (up 3.4 percent); Medically Needy Families (up 2.6 percent); Medically Indigent Adults (up 4.7 percent); Refugee/Entrant (up 15.6 percent); 100 Percent Poverty (up 4.9 percent); 133 Percent Poverty (up 5.7 percent); Dialysis (up 63.3 percent); and Qualified Medicare Beneficiary (up 156.7 percent).

Public Assistance Families, which is a major expenditure group, had a relatively small increase in cost per eligible, up 3.4 percent to \$73.22 per month in 1994.

Of the other major aid groups in terms of expenditures (See Table 6), the Public Assistance Disabled showed an increase in cost per eligible, up 0.7 percent to \$337.70 in 1994.

These data do not include payment for health care services handled by Prepaid Health Plans (PHPs).

**PAYMENT PER USER**  
**BY PROGRAM AND AID CATEGORY - TABLE 8**

The Medi-Cal program spent \$366.45 per month per user of service during 1994. This was \$4.64 or 1.3 percent less than in 1993.

The lowest monthly cost group was the 133 Percent Poverty beneficiary at \$111.20 per user, followed by the Presumptive Eligibility for Pregnant Women beneficiary at \$133.19 per user.

Public Assistance Aged, Blind, and Disabled Medi-Cal payments are relatively low because practically all this group has concurrent Medicare coverage which pays a substantial portion of the medical bill.

The cost for Public Assistance (PA) Families was \$184.49 per user per month, while for Medically Needy (MN) Families it was \$282.20. A larger proportion of MN Families utilize hospital inpatient services resulting in higher cost rates.

Costs per user in the MN Aged, Blind, and Disabled groups tend to be rather large. This is because a large number of persons in these groups are in a long-term care facility. The cost per Medically Needy user runs almost three times that of Public Assistance users.

Cost per user for Medically Indigent Adults showed a decrease of 0.3 percent from the previous year. The Medically Indigent Children was down 3.5 percent in cost per user from 1993.

The IRCA Aliens, OBRA Aliens, 185 Percent Poverty, and the 200 Percent Poverty programs all showed decreases in the cost per user, while the cost per user for the Refugee/Entrant, 100 Percent Poverty, and the 133 Percent Poverty programs showed increases.

The cost per user for the Dialysis program showed an increase of 57.8 percent from the previous year.

The 60-Day Postpartum, Total Parenteral Nutrition, and the Qualified Medicare Beneficiary programs all showed a decrease in cost per user.

Month of Payment Calendar Year Reports.

## **COST PER SERVICE - TABLE 9**

The most frequently used physician service is, of course, the outpatient visit. In 1994, the Medi-Cal average cost per physician outpatient visit was \$23.04. Outpatient visits include office, emergency room, home, and other outpatient situations.

Physicians' hospital inpatient visits averaged \$32.84 per visit. Visits for long-term care inpatients averaged \$25.33 per visit.

After outpatient visits, the second largest expenditure category of physician services is for inpatient hospital surgery. This service has the highest cost rate, \$600.17 per service in 1994.

The average cost per drug prescription was \$23.36 in 1994, an increase of 4.5 percent from the prior year.

The highest cost per service in the Medi-Cal program is, of course, for hospital inpatient care. The average cost per hospital inpatient day in 1994 was \$978.85 for Public Assistance Families and Medically Needy Families. Those groups accounted for 36.0 percent of total hospital inpatient expenditures in 1994 and were used in Table 9 so that most Medicare/Medi-Cal crossover data could be excluded. Costs include ancillaries as well as accommodations.

In 1994, the average cost per day of care was \$76.44 for nursing facilities and \$104.86 for intermediate care facilities-developmentally disabled.

## **AID CATEGORY PROVIDER PAYMENT DISTRIBUTION - FIGURE 2**

Figure 2 depicts the distribution of provider payments for major aid categories in 1994. Provider types accounting for less than 5 percent of the total payment for each aid category are not depicted.

Provider payments in the Aged category were mainly for Long-Term Care in Nursing or Intermediate Care Facilities: Long-Term Care together with Hospital services accounted for 75 percent of the \$2.24 billion total payment for the Aged in 1994.

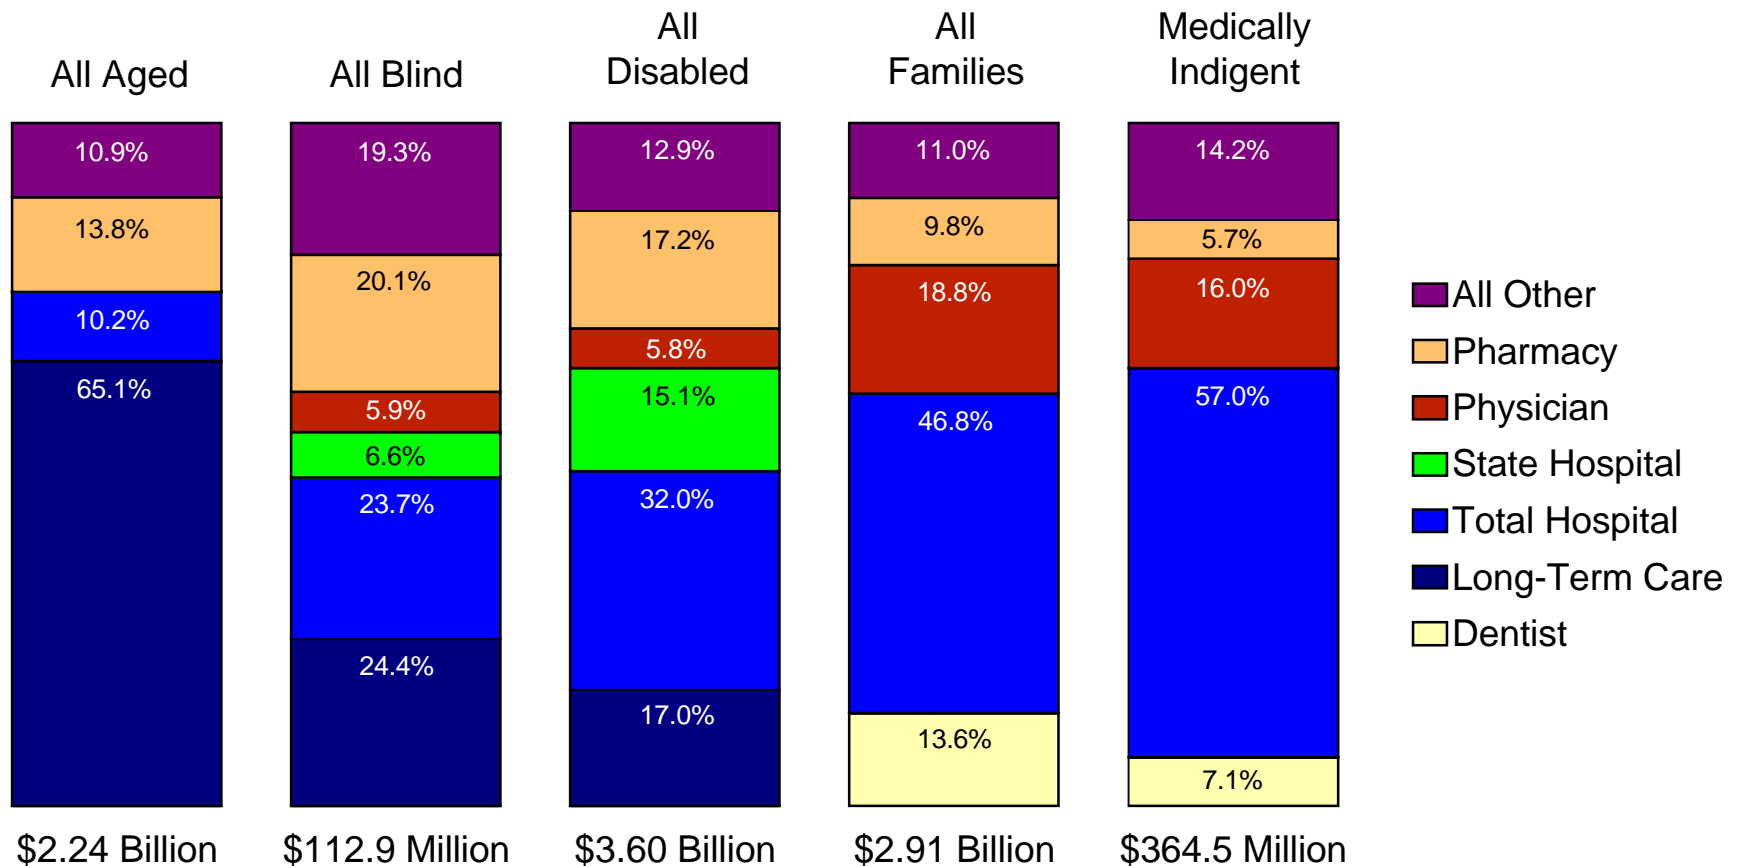

Payments for the Blind and Disabled were largely for Hospital, State Hospital, and Long-Term Care services. Those three service categories accounted for 55 percent of the \$112.9 million expenditure for the Blind and 64 percent of the \$3.60 billion expenditure for the Disabled.

Forty-seven percent of the payments for Families were for Hospital services. Hospitals together with Physician services accounted for 66 percent of the \$2.91 billion payment for Families.

Provider payments for Medically Indigent were mainly for Hospital services which accounted for 57 percent of the \$364.5 million total payment.

Figure 2

## **PAYMENTS BY PROVIDER TYPE - TABLE 10**

Provider payments averaged \$852.1 million per month during 1994, up \$25.1 million from the prior year's average.

Community Hospitals received the largest share of the Medi-Cal provider payments. Monthly expenditures for these hospital services decreased 4.2 percent over the prior year to \$221.8 million per month.

Nursing Facilities was the second highest paid provider group. Their payments increased 4.1 percent from 1993 to \$160.9 million per month.

Physicians received \$86.7 million per month in 1994, up 2.1 percent from the prior year.

During 1994, payments to County Hospitals averaged \$82.1 million per month, down 9.9 percent from 1993.

The major reason for the large increase in cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshé lawsuit.

All of the provider types showed an increase in 1994, except Optometrist, County Hospital, Community Hospital, and Medical Transportation, which showed decreases of 2.9, 9.9, 4.2, and 10.5 percent respectively.

### **DISTRIBUTION OF PROVIDER PAYMENTS - FIGURE 3**

Total Hospitals accounted for 35.7 percent of the total expenditures paid in 1994. This was 3.3 percentage points lower than in 1993.

Community Hospitals accounted for 26.0 percent of the total expenditures paid in 1994. This was 2.0 percentage points lower than in 1993.

Nursing Facilities accounted for 18.9 percent of the total expenditures paid in 1994. This was a 0.2 percentage point higher than in 1993.

County Hospitals accounted for 9.6 percent of the total expenditures paid in 1994. This was 1.4 percentage points lower than in 1993.

Pharmacies accounted for 12.6 percent of the total expenditures paid in 1994. This was 1.1 percentage points higher than in 1993.

Physicians accounted for 10.2 percent of the total expenditures paid in 1994. This was a 0.1 percentage point lower than in 1993.

Dentists accounted for 6.0 percent of the total expenditures paid in 1994. This was a 0.7 percentage point higher than in 1993.

State Hospitals accounted for 5.7 percent of the total expenditures paid in 1994. This was a 0.7 percentage point higher than in 1993.

## **COST PER ELIGIBLE BY PROVIDER TYPE - TABLE 11**

In 1994, the average monthly cost per eligible was \$174.52.

Community Hospitals was the largest expenditure category and had the highest cost per eligible per month at \$45.42, down 5.3 percent from 1993.

Cost per eligible in the second largest expenditure category, Nursing Facilities, was \$32.96 in 1994.

Pharmacies was the third largest expenditure category and its monthly cost per eligible of \$21.96 reflected an increase of 11.9 percent from 1993.

The major reason for the large increase in cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshé lawsuit.

## **COST PER USER BY PROVIDER TYPE - TABLE 12**

The average monthly cost per user was \$366.45 in 1994.

Users of State Hospital services and County and Community Hospital Inpatient services were the most costly - of those three provider types, State Hospital services showed the highest cost per user at \$8,665.12 per month, up 10.1 percent from 1993. County Hospital Inpatient services showed the cost per user at \$5,330.86, up 3.4 percent from 1993; and Community Hospital Inpatient services showed the lowest cost per user at \$3,734.11, up 7.2 percent from 1993.

The major reason for the increase in the cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshé lawsuit.

## TOTAL MEDI-CAL PROGRAM EXPENDITURES - TABLE 13

Table 13 is the only table showing all types of Medi-Cal program expenditures. The following figures reflect actual budget item expenditures and, as such, are reported here by fiscal (budget) year rather than by calendar year.

Total Medi-Cal expenditures were \$15.76 billion for Fiscal Year (FY) 1993-94, an increase of 18.3 percent from FY 1992-93.

The \$9.65 billion in direct fee-for-service provider payments was an increase of 6.4 percent. These expenditures accounted for 61 percent of the total expenditures in FY 1993-94 and 68 percent in the FY 1992-93.

Delta Dental Service (DDS) is an at-risk fiscal intermediary providing authorization and payment for virtually all types of Medi-Cal dental services rendered. DDS covers all Medi-Cal eligibles except those enrolled in PHPs providing dental care. In FY 1993-94, the approximate number of Medi-Cal eligibles covered by DDS was 4.96 million persons per month. Capitation payments totaled \$565.8 million, up 32.7 percent from FY 1992-93.

Prepaid Health Plan (PHP) capitations increased 7.2 percent to \$493.4 million in FY 1993-94.

There were three County Organized Health Systems (COHSs) in effect during FY 1993-94. Santa Barbara Health Initiative was effective June 1, 1983, Health Plan of San Mateo was effective December 1, 1987, and Solano Partnership Health Plan was effective May 1, 1994. Payments to COHSs totaled \$184.1 million.

Expenditures for Early Periodic Screening Services increased 12.2 percent to \$103.9 million in FY 1993-94. The program provides screening, diagnostic, and treatment services for all Medi-Cal eligibles under age 21.

The Short-Doyle/Medi-Cal program provides community mental health services to Medi-Cal program eligibles. The \$279.2 million expenditure in FY 1993-94 reflects an increase of 28.9 percent from the prior fiscal year.

Buy-In is the purchase of Medicare Part A and Part B Medical Insurance Coverage by the Medi-Cal program for those eligibles who are entitled to the coverage. Expenditures for Medicare Part A and Part B Buy-In ran \$468.7 million in FY 1993-94.

Administration costs include various State Departmental expenditures, payments for claims processing operations, and county administrative expenses. In FY 1993-94, these expenditures increased 11.0 percent from the prior fiscal year. Administration costs accounted for 4.0 percent of total expenditures in FY 1993-94 and 4.2 percent of total expenditures in 1992-93.

## **SECTION 4**

### **MEDI-CAL PROVIDER PARTICIPATION**

## **SECTION 4**

### **MEDI-CAL PROVIDER PARTICIPATION**

Table 14 shows the total number of selected types of providers and their distribution by amount paid. The figures include out-of-state providers. Physicians include group practices which are counted as one provider. This understates the physician count, but it is not known how many physicians are practicing in a group.

A county distribution of selected types of providers is given in Table 26 and Table 27. The physician and hospital counts of Table 26 differ from Table 14 due to a different billing period used in Table 26.

The majority of providers are in the \$1-\$599 and \$600-\$9,999 payment intervals. However, for Pharmacies, there were more providers in the \$100,000-\$999,999 payment interval.

The large number of total general hospitals and the large number who received less than \$10,000 each reflects the fact that out-of-state hospital billings are included in the data. Table 26 shows 770 hospitals received payment from Medi-Cal for either inpatient services, outpatient services, or both.

For intermediate care facilities for the developmentally disabled (DD), the largest paid amount interval was \$100,000-\$999,999.

For nursing facilities, the largest paid amount interval was \$1,000,000 and Over.

## **SECTION 5**

### **MEDI-CAL CAPITATED HEALTH SYSTEMS**

## PREPAID HEALTH PLAN ENROLLMENT - TABLE 15

An annual average of 507,957 Medi-Cal eligibles were enrolled in Prepaid Health Plans ( PHPs) each month of 1994. The enrollment increased 34.9 percent from the average of 376,551 persons enrolled each month in 1993.

Most enrollees (92 percent) were persons in families with dependent children.

Los Angeles County showed a monthly average of 310,343 PHP enrollees in 1994, which accounted for 61 percent of the total enrollees.

San Diego County was second in PHP enrollment, with an average of 56,624 enrollees per month.

A Geographic Managed Care (GMC) pilot project began in Sacramento County on April 1, 1994. Medi-Cal recipients in Sacramento County who receive assistance through Aid to Families with Dependent Children (AFDC) and Medically Indigent Children are required to enroll in a managed care plan. Aged, blind, and disabled recipients who are eligible for Medi-Cal under the Supplemental Security Income (SSI) program may voluntarily enroll in one of the managed care plans or continue receiving health care through the Medi-Cal fee-for-service program.

A second Geographic Care program will be implemented in San Diego with an expected start date of March 1, 1996. Approximately 200,000 beneficiaries will enroll in five Prepaid Health Plans (PHPs).

GMC covers dental services for all AFDC eligibles. Effective April 1, 1994, services are being delivered through four contractors. On December 14, 1994, the U.S. District Court ordered that beneficiaries may choose to continue under fee for service rather than be under GMC. The Department is appealing this decision and is requesting a stay of the order.

During 1994, Medi-Cal had contracts with PHPs in 14 counties.

## **PREPAID HEALTH PLAN CAPITATION PAYMENTS - TABLE 16**

During 1994, \$599.8 million in capitation payments were made to Prepaid Health Plans by the Medi-Cal program. This was \$155.8 million more than was paid in the prior year.

Total payments were \$14.6 million for Aged beneficiaries, or an average of \$120.30 per enrollee per month.

Total payments were \$2.6 million for Blind beneficiaries, or an average of \$266.53 per enrollee per month.

The Medi-Cal program paid the highest rate for Disabled enrollees, an average of \$269.32 per person per month, giving a total of \$73.1 million in 1994.

In 1994, the largest total capitation payment \$490.0 million, was for enrollees in the Families category. This amounted to an average of \$87.85 per enrollee per month.

In 1994, \$19.4 million was for enrollees in the Other category. This amounted to an average of \$168.95 per enrollee per month.

Prepaid Health Plan Capitation Summaries.

## COUNTY ORGANIZED HEALTH SYSTEMS - TABLE 17

County organized health systems (COHSs) are prepaid by the Medi-Cal program on a capitated at-risk basis. COHSs are responsible for providing authorization and payment for most non-dental Medi-Cal services rendered to Medi-Cal eligibles residing in their respective counties.

The Health Plan of San Mateo (HPSM) was effective December 1, 1987. A total of \$84.2 million in capitation payments were made for an average of 49,921 monthly eligibles during 1994.

Monthly per capita payments to HPSM averaged \$127, \$264, \$264, and \$84 per person respectively for the Aged, Blind, Disabled, and Families groups. Medically Indigent per capita payments averaged \$120 per person per month, IRCA/OBRA Aliens per capita payments averaged \$245 per person per month, and the monthly rate for "All Other" aids averaged \$84.

The Santa Barbara Health Initiative (SBHI) was effective September 1, 1983. A total of \$73.9 million in capitation payments were made for an average of 41,145 monthly eligibles during 1994.

Monthly per capita payments to SBHI averaged \$528, \$298, \$278, and \$71 per person respectively for the Aged, Blind, Disabled, and Families groups. Medically Indigent per capita payments averaged \$86 per person per month, and the monthly rate for "All Other" aids averaged \$70.

One of the major differences between the Health Plan of San Mateo and the Santa Barbara Health Initiative is that the Santa Barbara Health Initiative provides Long-Term Care Services.

The Solano Partnership HealthPlan (SPH) was effective May 1, 1994. A total of \$60.0 million in capitation payments were made for an average of 40,517 monthly eligibles for eight months or an annual average of 27,012 eligibles.

Monthly per capita payments to SPH averaged \$375, \$407, \$389, and \$104 per person respectively for the Aged, Blind, Disabled, and Families groups. Medically Indigent per capita payments averaged \$217 per person per month, IRCA/OBRA Aliens per capita payments averaged \$216 per person per month, and the monthly rate for "All Other" aids averaged \$108.

## HEALTH PLAN OF SAN MATEO (HPSM)

The Health Plan of San Mateo (HPSM) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through the Health Plan of San Mateo with the following exceptions: Services in any federal or state governmental hospital ("State hospital" does not mean county hospital); Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disabilities Prevention (CHDP) services which are those health care services for eligibles under 21 years of age, and provided in accordance with Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services; Long term care services rendered by nursing and intermediate care facilities; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; and Home or community-based care waived services.

OBRA/IRCA recipients in San Mateo County began receiving services through the Health Plan of San Mateo (HPSM), effective September 1, 1993.

Currently, all recipients with an identification number beginning with County Code 41 (San Mateo County) with the following Aid Codes are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Health Plan of San Mateo:

Aged: 10, 14, 16, 17, 18  
Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68  
Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 40, 42, 54, 59, 76  
Child: 03, 04, 45, 82, 83  
Adult: 71, 73, 81, 86, 87  
Long Term Care: 13, 23, 53, 63  
IRCA/OBRA: 51, 52, 55, 56, 57, 58

Capitation payments do not include payments made to County Organized Health Systems for excess risk claims.

### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

## SANTA BARBARA HEALTH INITIATIVE (SBHI)

The Santa Barbara Health Initiative (SBHI) is a Medi-Cal County Organized Health System administered by Santa Barbara Regional Health Authority under contract to the State. This program provides health care services on a case management basis.

All services authorized for Medi-Cal reimbursement are provided through the Santa Barbara Health Initiative with the following exceptions: Services in any federal or state governmental hospital; Services rendered under California Children's Services (CCS) case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services; Adult Day Health Care; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; The facility or per diem charge component of services rendered to covered beneficiaries 21 to 64 years of age institutionalized in a Joint Commission on Accreditation of Healthcare Organizations (JCAHO) accredited facility designated by the United States Department of Health and Human Services (DHHS) as an Institution for the Mentally Disordered (IMD), except for covered beneficiaries who were receiving such services before turning 21 years of age and who may continue to require such services before turning 21 years of age and who may continue to require such services in which case coverage may be extended until the beneficiary's 22nd birthday; and The facility or per diem charge component of services rendered to covered beneficiaries 64 years of age and under, institutionalized in a non-JCAHO accredited facility designated by DHHS as an IMD.

Currently, all recipients with an identification number beginning with County Code 42 (Santa Barbara County) with the exception of Aid Codes 3A, 3C, 4C, 4K, 5F, 5K, 6A, 6C, 07, 7A, 7C, 7F, 7G, 7H, 8C, 8F, 9A, 44, 47, 48, 49, 51, 52, 55, 56, 57, 58, 69, 70, 72, 74, 75, 79, and 80 who are eligible to receive medical benefits under Medi-Cal or as Medicare/Medi-Cal crossovers are served through the Santa Barbara Health Initiative. (Medi-Cal Aid Codes are listed at the end of this report.)

Capitation payments do not include payments made to County Organized Health Systems for excess risk claims.

## SOLANO PARTNERSHIP HEALTHPLAN (SPH)

The Solano Partnership HealthPlan (SPH) is a Medi-Cal County Organized Health System, under contract to the State, which is designed to provide a more economical organization of health care resources on a case management basis.

All services authorized for Medi-Cal reimbursement will be provided through the Solano Partnership HealthPlan with the following exceptions: Services rendered under the California Children's Services case management and not reimbursable under the State's Title XIX program; Child Health and Disability Prevention (CHDP) services to eligibles under 21 years of age provided in accordance with the provisions of Title 17, California Code of Regulations (CCR), Section 6800, et seq.; Dental services, as defined in Title 22, CCR, Section 51059; Short-Doyle/Medi-Cal mental health services and alcohol and drug program services; Laboratory analysis and reporting under the State serum alpha-feto protein testing program administered by the Genetic Disease Branch of the State Department of Health Services; Services rendered under the Adult Day Health Programs pursuant to Title 22, CCR, Section 54001, et seq.; Services rendered under the Multipurpose Senior Services Program pursuant to Chapter 5 (commencing with Section 9400) of Part 1 of Division 8.5 of the Welfare and Institutions Code; or Home and community-based care waived services as described in Title 22, CCR, Section 51346; Local Education Authority (LEA) services described in Title 22, CCR, Section 51360 when provided pursuant to an Independent Education Plan (IEP) or Individual Family Services Plan (IFSP); LEA assessment services as described in Title 22, CCR, Section 51360 (b) (1) for eligible students.

Currently, all recipients with an identification number beginning with County Code 48 (Solano County) with the following Aid Codes are eligible to receive medical benefits under the Solano Partnership HealthPlan:

Aged: 10, 14, 16, 17, 18  
Disabled: 20, 24, 26, 27, 28, 36, 60, 64, 65, 66, 67, 68  
Family: 01, 02, 08, 30, 32, 33, 34, 35, 37, 38, 39, 40, 42, 54, 59, 76  
Child: 03, 04, 45, 82, 83  
Adult: 71, 73, 81, 86, 87  
Long Term Care: 13, 23, 53, 63  
IRCA/OBRA: 51, 52, 55, 56, 57, 58

Capitation payments do not include payments made to County Organized Health Systems for excess risk claims.

### NOTE

The Immigration Reform and Control Act (IRCA) Alien Program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

## **SECTION 6**

### **MEDICARE PART A AND PART B BUY-IN ACTIVITY**

## SECTION 6

### MEDICARE PART A AND PART B BUY-IN ACTIVITY

Medicare, a medical insurance program, and Medi-Cal, a medical assistance program, together work to pay the medical bills of certain needy and low-income persons. The Medi-Cal program purchases Medicare Part A and Part B Supplementary Medical Insurance (SMI) for program eligibles who are entitled to the coverage.

Table 18 is included to show the number of Medi-Cal eligibles who were also eligible for Medicare Part A and Part B SMI coverage and for whom Medi-Cal paid the enrollment premium (bought in for).

Part A SMI benefits include hospital inpatient services.

Medi-Cal paid the monthly Medicare Part A enrollment premium for an average of 42,827 persons (35,311 aged and 7,515 disabled). The monthly premium averaged \$11.7 million.

Part B SMI benefits include physicians' medical and surgical services, outpatient hospital services, outpatient physical therapy and speech pathology services, durable medical equipment, services from independent laboratories, ambulance services, home health care, and a number of other health services and supplies. In addition to paying the monthly enrollment premium for eligible persons, Medi-Cal can pay the annual deductible and the portion of covered medical costs that Medicare does not pay.

In 1994, Medi-Cal paid the Medicare Part B enrollment premium for an average of 419,093 aged persons each month. The monthly premium averaged \$18.3 million

Medi-Cal paid the monthly Medicare Part B enrollment premium for 286,778 disabled persons with premiums averaging \$12.2 million per month. The Disabled category includes persons in the Disabled or Blind aid categories.

**TABLE 18**

**SECTION 7**

**OTHER COVERAGE**

## **SECTION 7**

### **OTHER COVERAGE**

Generally, providers are required to bill all other health insurance carriers prior to billing Medi-Cal. In exceptional cases, the Department's Recovery Branch handles the recoupment of any third-party liabilities.

The recipient's "Other Coverage" code appears on his or her Medi-Cal ID card. Table 19 shows, for the month of July 1994, the number of eligibles who had other coverage. Eligibility under Medicare is not considered "Other Coverage".

In total, only 195,900 persons or 3.6 percent of the July 1994 eligible population had Other Coverage (OC). Of these, 61.8 percent were Families in the Public Assistance (PA) and Medically Needy (MN) programs. This was lower than their representation in the total eligible population which was 63.6 percent.

Of the 70,396 Aged, Blind, and Disabled persons in the MN Long-Term Care aid category, 24.0 percent had some sort of OC. Most of this aid group also has Medicare coverage which is not included in Table 19.

"Other" Aged, Blind, and Disabled included PA, MN with a share of cost, and MN with no share of cost. The proportion of this group having OC was 3.1 percent. However, many in this aid group have Medicare coverage.

## **SECTION 8**

### **COUNTY DATA**

## SECTION 8

### COUNTY DATA

[Table 20](#) shows the number of Medi-Cal eligibles, including Prepaid Health Plans ( PHPs) by age group and sex, in October 1994. Males comprise 41 percent of the Medi-Cal eligibles. Most males (67 percent) are under age 21, 24 percent are of ages 21 to 64, and 9 percent are 65 and older.

Fifty-nine percent of eligibles are females. Most females are under age 21 (49 percent), 39 percent are of ages 21 to 64, and 13 percent are 65 and older.

[Table 21](#) shows the average monthly number of persons eligible for Medi-Cal in each county by program and aid category, excluding PHP enrollees. In order to obtain total eligibles, the PHP enrollment of Table 15 should be added to the Public Assistance eligibles.

Los Angeles County accounted for 32 percent of non-PHP eligibles and 35 percent of eligibles including PHP enrollees.

[Table 22](#) reports average monthly number of users by program and aid category, excluding PHPs. Division of Table 22 by Table 21 will give proportion of eligibles using Medi-Cal services, or the utilization rate.

Los Angeles County accounted for 32 percent of the users. Its utilization rate of 48.3 percent was a 0.7 percentage point higher than the statewide average of 47.6 percent.

[Table 23](#) is a companion to the two preceding tables. Cost per user can be obtained by dividing Table 23 by Table 22, while division by Table 21 gives cost per eligible.

Los Angeles County accounted for 33.7 percent of the statewide total expenditures. The County's annual cost per user was \$4,600, which was 4.6 percent higher than the statewide average. Los Angeles County's annual cost per eligible was \$2,224, which was 6.2 percent higher than the statewide average.

[Table 24](#) shows average monthly number of users by type of provider. Utilization rates for the various services can be obtained by dividing the number of users by the county total eligibles of Table 21.

For example, the statewide utilization rate for physician services was 21 percent, or 21 out of every 100 eligibles used this service each month. The Los Angeles County utilization rate for physician services was 24 percent.

[Table 25](#) is a companion to Table 24. Cost per user by type of provider can be derived from the two tables.

For example, Los Angeles County's annual cost per user of physician services was \$1,026.13, which was almost the same as the statewide average of \$1,014.81.

It can be noted from Table 25 that physician services accounted for 10.2 percent of total expenditures statewide and 10.9 percent of expenditures in Los Angeles County. Such comparisons can be made for each type of provider.

[Table 26](#) shows the number of physicians and hospitals receiving payments from the Medi-Cal program during the July-September 1994 quarter. The hospitals are the general acute care facilities and exclude state hospitals. Primary care physicians are reported separately by type of primary care specialty. Any other specialty (e.g., psychiatry, pathology, etc.) is included in the "All Other" column.

The number of physicians is understated. Due to the billing procedures used in the Medi-Cal program, the number of physicians practicing in groups is not known. Therefore, a group is counted as only one physician throughout this table.

Forty-two percent of the physicians billing the program were primary care physicians. Seventeen percent of the physicians were general practice/family practice physicians, 11 percent specialized in internal medicine, 7 percent specialized in obstetrics/gynecology, and 7 percent were pediatric specialists.

[Table 27](#) shows the county distribution of selected providers receiving Medi-Cal program payments. These are provider types whose total numbers are high enough to provide a functional county distribution for this table.

As would be expected, Los Angeles County, which is the most populous California county, has the largest proportion of providers. Alpine County had only 200 Medi-Cal eligibles and an estimated 1,200 county population in 1994. Other types of services may be obtained through providers in surrounding counties.

[Table 28](#) shows the population and Medi-Cal eligibles (including PHPs) for each county. This table goes hand in hand with Table 2.

Los Angeles County (the most populous California county) accounted for 28.7 percent of the population and 34.5 percent of the eligibles; followed by San Diego County accounting for 8.4 percent of the population and 6.6 percent of the eligibles; and Orange County accounting for 8.1 percent of the population and 5.4 percent of the eligibles.

[Table 29](#) shows the number of persons certified eligible for Medi-Cal (including PHPs) by county and race/ethnicity in October 1994.

Of the 5,442,419 persons certified eligible for Medi-Cal in October 1994, 2,047,305 were Hispanic; 1,668,758 were White; 748,750 were Black; and 977,606 were of Other and Not Reported race/ethnicities.

In terms of percentages, 37.6 percent of the Medi-Cal eligibles were Hispanic, 30.7 percent White, 13.8 percent Black, 8.3 percent Asian/Pacific Islander, 0.4 percent American Indian/Alaskan Native, and 9.2 percent Not Reported race/ethnicities.

[Table 30](#) shows the number of providers by provider type and status. As of December 31, 1994, there were 92,192 providers with Active Status, 194,737 providers with Inactive Status, 217 providers with Pending Status, 3,595 providers with Deceased Status, 131 providers with Rejected Status, and 1,520 providers with Suspended Status.

Please Note: The major reason for the large increase in cost of dental services is due to higher rates paid for dental procedures as a result of the Court Order under the Clark vs. Belshe lawsuit.

Please Note: The paid claims data on Tables 22-25 (Users and Payments) are understated for San Mateo, Santa Barbara, and Solano Counties due to the fact that not all covered services are reimbursed on a per claim basis.

## **SECTION 9**

### **MEDI-CAL PROGRAM TRENDS**

**Blank Page**

## MEDI-CAL PROGRAM OVERVIEW

In July 1965, two major amendments to the Social Security Act greatly expanded the scope of medical coverage available to various segments of the population. Title XVIII established the Medicare program, and Title XIX established the state-option medical assistance program known as Medicaid that provided Federal matching funds to states implementing a single comprehensive medical care program.

State legislation implementing the Title XIX program was signed in November 1965. Medi-Cal, California's medical assistance Medicaid program, became effective in March 1966. Under the provisions of Title 22 of the California Code of Regulations, the State Department of Health Services administers the Medi-Cal program and has statutory responsibility to formulate policy that conforms with Federal and State requirements.

The objective of the Medi-Cal program is to provide essential medical care and services to preserve health, alleviate sickness, and mitigate handicapping conditions for individuals or families on public assistance, or whose income is not sufficient to meet their individual needs. The covered services are generally recognized as standard medical services required in the treatment or prevention of diseases, disability, infirmity or impairment. These services are comprehensive and provide care in the major disciplines of health care.

From the inception of the Medi-Cal Program, the State has contracted with a vendor to receive and process Medi-Cal claims.

In 1992, the State released a Request for Proposal (RFP) to all interested vendors. The RFP was developed to fulfill the State's requirements for fiscal responsibilities and good administrative practices, and to meet the Federal requirements under the Medicaid Management Information System (MMIS).

Electronic Data Systems responded to this RFP and was selected in September 1992 to process Medi-Cal claims for the next 5 years.

## MEDI-CAL PAYMENTS - TABLE 31

Data included in this table are regular Fee-For-Service (FFS), Prepaid Health Plans ( PHPs), Redwood Health Foundation (RHF), Health Plan of San Mateo (HPSM), Monterey Health Initiative (MHI), Santa Barbara Health Initiative (SBHI), and Delta Dental Service (DDS).

The Medi-Cal eligible population averaged 5.39 million persons per month in 1994. This reflects an increase of 186,358 or 3.6 percent from 1993 and an increase of 2.5 million or 87.5 percent from 1985.

Public Assistance eligibles averaged 4.08 million persons per month in 1994, increased 4.3 percent from 1993 and 68.0 percent from 1985.

Medically Needy eligibles averaged 576,531 persons per month in 1994, increased 2.8 percent from 1993 and increased 76.0 percent from 1985.

Medically Indigent (MI) eligibles averaged 253,875 persons per month in 1994, increased 7.2 percent from 1993 and increased 129.8 percent from 1985. Effective January 1, 1983, responsibility for the health care services for most MI Adults was transferred to the 58 counties.

The Immigration Reform and Control Act (IRCA) Alien program averaged 13,459 persons per month in 1994, decreased 67.1 percent from 1993. The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

The Omnibus Budget Reconciliation Act (OBRA) Alien program averaged 300,469 persons per month in 1994, decreased 2.8 percent from 1993.

The Refugee/Entrant program averaged 7,311 persons per month in 1994, decreased 14.1 percent from 1993 and decreased 22.0 percent from 1985.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and 200 Percent Poverty programs averaged 149,273 persons per month in 1994, increased 13.0 percent from 1993.

The 60-Day Postpartum program averaged 1,790 persons per month in 1993, decreased 12.1 percent from 1993.

The Dialysis and Total Parenteral Nutrition programs are small, with an average of 38 eligibles per month in 1994, a decrease of 15.6 percent from 1993 and a decrease of 46.5 percent from 1985.

The Qualified Medicare Beneficiary program averaged 1,587 eligibles per month in 1994, a decrease of 39.0 percent from 1993.

The Presumptive Eligibility for Pregnant Women program averaged 6,842 eligibles per month in 1994.

The Medi-Cal Tuberculosis program averaged 5 eligibles per month in 1994. Please Note: This program was not in existence the entire year.

## MEDI-CAL PAYMENTS - TABLE 32

Data included in this table are regular Fee-For-Service (FFS), Prepaid Health Plans ( PHPs), Redwood Health Foundation (RHF), Health Plan of San Mateo (HPSM), Monterey Health Initiative (MHI), Santa Barbara Health Initiative (SBHI), and Delta Dental Service (DDS).

During 1994, Medi-Cal program payments ran \$10.8 billion. This reflects an increase of \$456.8 million or 4.4 percent from 1993 and an increase of \$6.7 billion or 160.9 percent from 1985.

Public Assistance, the largest group in terms of total expenditures, received \$6.3 billion in services during 1994, an increase of 6.4 percent from 1993 and an increase of 148.1 percent from 1985.

The Medically Needy group received \$3.1 billion in services during 1994, an increase of 5.1 percent from 1993 and an increase of 148.1 percent from 1985.

Medically Indigents received a total of \$364.5 million in services during 1994, an increase of 10.3 percent from 1993 and an increase of 65.6 percent from 1985. Effective January 1, 1983, responsibility for the health care services for most Medically Indigent Adults was transferred to the 58 counties.

The Aliens and Refugee/Entrants received a total of \$702.3 million in services during 1994, a decrease of 17.4 percent from 1993. The Immigration Reform and Control Act (IRCA) Alien program (Aid Codes 51, 52, 56, and 57) expired December 31, 1994.

The 100 Percent Poverty, 133 Percent Poverty, 185 Percent Poverty, and 200 Percent Poverty programs ran \$251.6 million during 1994, an increase of 4.4 percent from 1993.

The 60-Day Postpartum program ran \$1.7 million during 1994.

The Dialysis and Total Parenteral Nutrition programs ran \$545 thousand during 1994.

The Qualified Medicare Beneficiary program ran \$1.4 million in 1994.

The Presumptive Eligibility for Pregnant Women program ran \$11 million during 1994.

The Medi-Cal Tuberculosis program was implemented on October 1, 1994, retroactive to July 1, 1994.

The increase in expenditures in 1994 from previous years is attributable to an increase in eligibles, a higher rate of use by beneficiaries, reimbursement rate increases to providers, inflation, and changes in services.

## **MEDI-CAL AID CODES**

### **CALENDAR YEAR 1994**

The following aid codes were used in the classification and reporting of Medi-Cal beneficiaries in this report. Each aid code is identified as to the availability of federal financial participation (FFP) under Title XIX.

#### **PUBLIC ASSISTANCE**

##### **1. CASH GRANT**

- 10 AGED..... SSI/SSP Aid to the Aged (FFP)
- 20 BLIND ..... SSI/SSP Aid to the Blind (FFP)
- 3A AFDC-CAAP ..... California Alternative Assistance  
Program - Aid to Families with  
Dependent Children, Family Group (FFP)
- 3C AFDC-CAAP ..... California Alternative Assistance  
Program - Aid to Families with Dependent  
Children, Unemployed Parent Group (FFP)
- 30 AFDC-FG ..... Aid to Families with Dependent  
Children Family Group (FFP)
- 32 AFDC-FG ..... Aid to Families with Dependent  
State Only Children - State Only Family Group –  
State-Only (FFP-Medi-Cal Only)

These recipients were coded as Aid Code 30 prior to July 1, 1988 and were included with federally eligible family group recipients. (See MPP Section 40-103.)

## MEDI-CAL AID CODES (Continued)

CALENDAR YEAR 1994

### PUBLIC ASSISTANCE (Continued)

#### 1. CASH GRANT (Continued)

33 AFDC-U ..... Aid to Families with Dependent  
State Only ..... Children -- Unemployed Parent --  
State-Only (FFP-Medi-Cal Only)

These recipients were coded as Aid Code 35 prior to July 1, 1988 and were included with federally eligible unemployed recipients. (See MPP Section 40-103.)

35 AFDC-U ..... Aid to Families with Dependent  
Children -- Unemployed Parent (FFP)

38 EDWARDS v. MYERS. ..... Continuing Medi-Cal Eligibility -- No  
Share of Cost (FFP)

39 Initial TMC..... Initial Transitional Medi-Cal (TMC) --  
Initial Six Months

4C AFDC-FC-..... Aid to Families with Dependent Children --  
Voluntary Foster Care -- Voluntarily Placed (Fed) (FFP).  
Provides financial assistance for those children  
who are in need of substitute parenting and  
who have been voluntarily placed in foster care

40 AFDC-FC- ..... Aid to Families with Dependent  
(Non-Fed) Children -- Foster Care -- (Non-Fed) (FFP)

42 AFDC-FC- ..... Aid to Families with Dependent  
(Fed) Children -- Foster Care -- (Federal) (FFP)

## **MEDI-CAL AID CODES (Continued)**

**CALENDAR YEAR 1994**

### **PUBLIC ASSISTANCE (Continued)**

#### **1. CASH GRANT (Continued)**

54 FOUR MO. CONT..... Four Month Continuing Eligibility --  
Persons discontinued from AFDC due to the  
increased collection of child/spousal support  
payments (FFP)

59 ADDITIONAL TMC ..... Additional Transitional Medi-Cal --  
Second Six Months

60 Disabled ..... SSI/SSP Aid to the Disabled (FFP)

#### **2. PICKLE ELIGIBLES/20% SOCIAL SECURITY DISREGARDS**

\*\*\*16 AGED-PICKLE ELIG. .... Aid to the Aged -- Pickle Eligibles  
(FFP)

\*\*\*26 BLIND-PICKLE ELIG ..... Aid to the Blind -- Pickle Eligibles  
(FFP)

\*\*\*36 DISABLED ..... Aid to Disabled Widow/er (FFP)  
COBRA-  
WIDOW/ERS

---

\*\*\* **NOTE:** This also includes persons who were discontinued from cash grant status due to the 20% Social Security increase under Public Law 32-336. These persons are eligible for Medi-Cal benefits as public assistance recipients in accordance with Section 50247, Title 22, CAC.

## **MEDI-CAL AID CODES (Continued)**

CALENDAR YEAR 1994

### MEDICALLY NEEDED

#### 1. MEDICALLY NEEDED, NO SHARE OF COST

- 14 AGED-MN ..... Aid to the Aged – Medically  
Needy, No Share of Cost (FFP)
- 24 BLIND-MN ..... Aid to the Blind – Medically  
Needy, No Share of Cost (FFP)
- 34 AFDC-MN ..... Aid to Families with Dependent  
Children -- Medically Needy, No Share of Cost  
(FFP)
- 64 DISABLED-MN ..... Aid to the Disabled – Medically  
Needy, No Share of Cost (FFP)

#### 2. MEDICALLY NEEDED, SHARE OF COST

- 17 AGED-MN SOC ..... Aid to the Aged -- Medically  
Needy, Share of Cost (FFP)
- 27 Blind-MN-SOC ..... Aid to the Blind -- Medically,  
Needy, Share of Cost (FFP)
- 37 AFDC-MN-SOC ..... Aid to Families with Dependent  
Children – Medically Needy,  
Share of Cost (FFP)
- 65 DISABLED-SGA/ABD-MN .. Aid to the Disabled –  
(IHSS) SOC Substantial Gainful  
Activity/Aged, Blind, Disabled -- Medically  
Needy (In-Home Supportive Services), Share  
of Cost (non-FFP)
- 67 DISABLED-MN-SOC ..... Aid to the Disabled -- Medically  
Needy, Share of Cost (FFP)

## **MEDI-CAL AID CODES (Continued)**

**CALENDAR YEAR 1994**

### **3. MEDICALLY NEEDY LONG-TERM CARE**

(NOTE: These aid Codes should be used for all individuals whose eligibility is determined in accordance with Sections 50203 and 50605, Title 22, CAC, regardless of whether or not there is share of cost involvement.)

13 AGED-LTC ..... Aid to the Aged -- Long-Term  
Care Status (FFP)

23 BLIND-LTC ..... Aid to the Blind -- Long-Term  
Care Status (FFP)

63 DISABLED-LTC ..... Aid to the Disabled -- Long-Term  
Care Status (FFP)

### **MEDICALLY INDIGENT**

03 AAP-Federal ..... Adoption Assistance Program  
(FFP)

04 AAP/AAC ..... Adoption Assistance  
Non-Federal Program/Aid for Adoption  
of Children (non-FFP)

4K MI-C ..... Emergency Assistance (EA)  
Program (FFP). Covers juvenile probation  
cases placed in foster care

45 FC ..... Children in Foster Care -- Under  
21 -- Supported in Whole or in Part by Public  
Funds (FFP)

5K MI-C ..... Emergency Assistance (EA)  
Program (FFP). Covers child welfare cases  
placed in EA foster care

## MEDI-CAL AID CODES (Continued)

CALENDAR YEAR 1994

### MEDICALLY INDIGENT (Continued) ...

53 MI-LTC .....	Medically Indigent -- Long-Term Care -- Age 21 and Under 65 Years -- With or Without a Share of Cost (non-FFP)
81 MI .....	Medically Indigent Adults -- Age 21 and Under 65 years -- Aid Paid Pending -- With or Without Share of Cost (non-FFP)
***** 82 MI-C .....	Medically Indigent Children -- Under 21 -- No Share of Cost (FFP)
***** 83 MI-C-SOC .....	Medically Indigent Children -- Under 21 -- Share of Cost (FFP)
86 MI-CP.....	Medically Indigent -- Confirmed Pregnancy -- 21 Years or Older -- No Share of Cost (FFP)
87 MI-CP-SOC .....	Medically Indigent -- Confirmed Pregnancy -- 21 Years or Older -- Share of Cost (FFP)

---

\*\*\*\*\*NOTE: These aid codes can be used for a person under 21 years of age in long-term care (LTC) status. However, an LTC indicator cannot be used with Aid Code 82 on the Medi-Cal Eligibility System (MEDS). An LTC indicator can be used with Aid Code 83, but should not be used when an individual must meet a SOC using the MC 177 process.
